

## **CAREER GUIDANCE PROGRAM**

The program will throw light on a structured approach to career guidance and the exploration of careers across a combination of various subjects. The subject options are divided into four quadrants as mentioned below. The quadrant system gives students a more structured thought process while picking streams. It also allows for a better grouping of college majors and endows an understanding of the options that close and open when you choose/drop subjects. It brings clarity to the thought process as students/parents try to balance passion & practicality.

- 1.) Quadrant 1: Maths + Sciences (M.P.C)
- 2.) Quadrant 2: Math + No Sciences (M.E.C)
- 3.) Quadrant 3: No Math+ Sciences (B.P.C)
- 4.) Quadrant 4: No Math + No Sciences (C.E.C)

**The Resource persons are Mr. Sreekar Sannapareddy, Mr. Suraj Peri (Co-Founders of Gradvine Advisors Private Limited).** Gradvine is among India's fastest-growing career guidance and college application consulting platforms and offers personalized education mentoring platform for young students in their formative years. It is our pleasure to announce that Gradvine has been awarded as the Best Career Guidance Platform in 2022.

### **Key Takeaways:**

- **Promising Career Pathways:** Insights into the most promising college degrees and career opportunities within various fields.
- **College Pathways:** A comprehensive overview of the process for applying to colleges in India and abroad, including entrance requirements, timelines, and ideal planning strategies.
